EDUCATION

Chandigarh University

B.E. Computer Science Engineering — AI & ML Specialization | CGPA: 8.1

Mohali, Punjab

Aug 2023 – Jan 2027

Hari Bhoomi Sr. Sec. School

Class XII — 84%

Shri Lajja Ram Bashesar Dass Gurukul Vidyapeeth

Class X — 88%

EXPERIENCE

Academic Class Representative

Chandigarh University — AIT-CSE Division

Jan 2025 – Present

Mohali, India

- Represented 60+ students across 3 consecutive semesters — tracked issues, resolved conflicts, and liaised with faculty under competing deadlines.

Full Stack Web Development Intern

Webstack Academy (WSA) · MERN Stack

Mar 2026 – Apr 2026

Remote

- Delivered 3+ full-stack features using **React.js**, **Node.js**, **Express.js**, **MongoDB** — covering UI, REST APIs, and DB integration within a 2-month sprint cycle.
- Reduced integration bugs by applying modular component design and structured API contracts across frontend and backend layers.

PROJECTS

News Authenticity Classifier + Telegram Bot | Python, Scikit-learn, NLP

2024

- Trained and benchmarked 3 classifiers (TF-IDF + Naive Bayes, Logistic Regression) — selected best model by F1-score and deployed it behind a **Telegram Bot** for real-time fake news detection.
- Achieved end-to-end ML pipeline: data preprocessing → model selection → production API → consumer-facing bot interface.

Lecture AI | React, FastAPI, SQLite, Python

2025

- Built an AI-powered lecture-to-notes web app — **FastAPI** backend with **SQLite** persistence and **React** frontend; processes uploaded content into structured, searchable notes.
- Designed modular REST API with isolated service layers; reduced debugging overhead by separating concerns across 4 independent components.

Web-based Money Tracker | JavaScript, Python, SQL

Feb 2026

- Full-stack finance app with **SQL-backed CRUD**, multi-category spending analytics, and savings dashboards — deployed with separated frontend, API, and DB layers.
- Identified and resolved 5+ data consistency bugs through root-cause analysis, improving reliability across the full application lifecycle.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, SQL

Web & Frameworks: React.js, Node.js, Express.js, FastAPI, REST APIs, HTML/CSS

Databases: MongoDB, MySQL, SQLite

AI/ML: Scikit-learn, NumPy, Pandas, NLP, Prompt Engineering

Cloud & Tools: Microsoft Azure, GCP (BigQuery, Cloud SQL), Git, GitHub, Postman, Linux/Unix

Core CS: Data Structures & Algorithms, OOP, OS Fundamentals, SDLC

CERTIFICATIONS

- **AWS Academy** — Generative AI Foundations (Apr 2026)
- **NVIDIA** — Fundamentals of Deep Learning
- **IBM** — Generative AI for Data Engineers

- **Microsoft** — Azure AI Fundamentals (AI-900)
- **GitHub** — GitHub Foundations (CI/CD, DevOps)
- **Apna College** — Full Stack Web Development (MERN)

ACHIEVEMENTS

- **Top 50 / 10,000+ teams** — Graph-E-Thon 3.0 National Hackathon (Apr 2026)
- Member — GeeksforGeeks Student Chapter & Google Developer Student Club (GDSC), Chandigarh University
